

Install **EseeCloud** from the Play Store or App Store.

Register

Email/phone number

Confirm

When you start the app, it will require a cloud account. You can register a new account.

Enter an email or phone.

You will be sent a verification code to enter on the next screen.

2:10

Setup password

Verification code has been sent to 13873233696, please check.

Verification code

[Get verification code again](#)

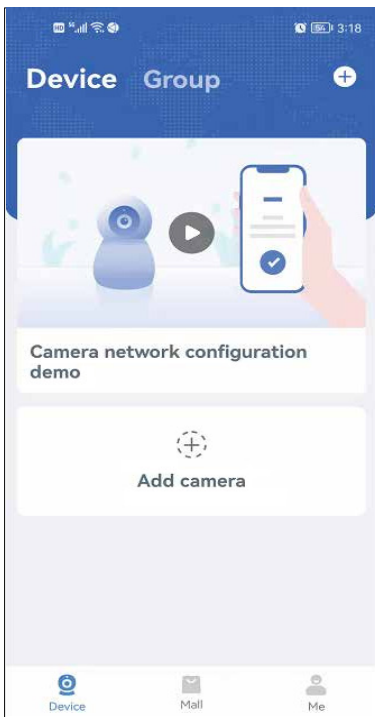

password

confirm password

The password is 6-20 characters long, using numbers, symbols or letters and distinguish Capitalization

Confirm

Enter the verification code and create a password.

After you have logged in, you can add a device.

Click “+” to add the device.

You can scan the QR sticker on the device, or scan the QR in the NVR system menu (System Setup → App)

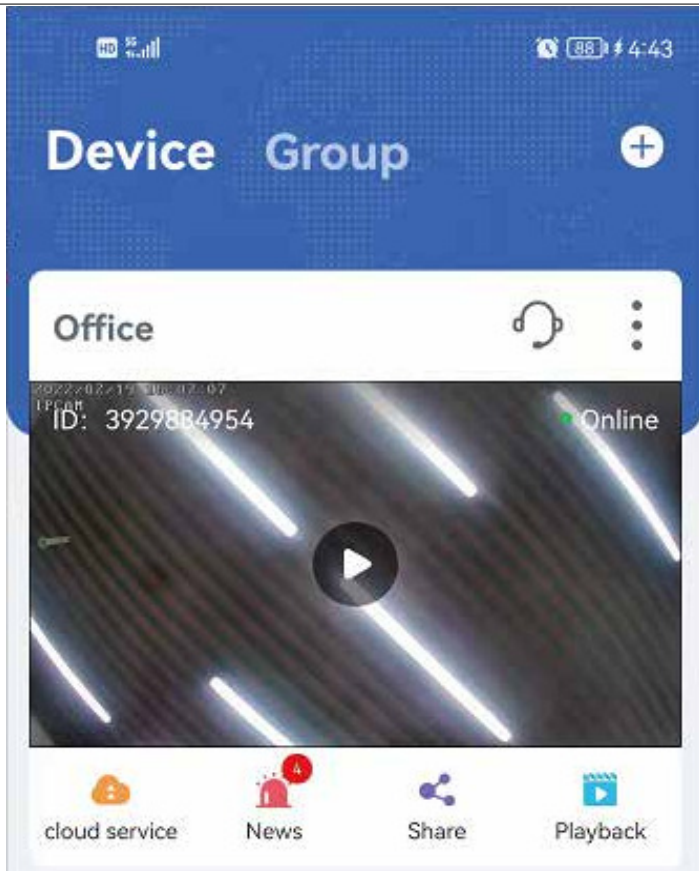

If you cannot scan by phone, click on “Other ways to add” and then “Add by ID”.

Enter the cloud ID found in the NVR “System Setup → App” menu.

Enter any device name, such as “Office”

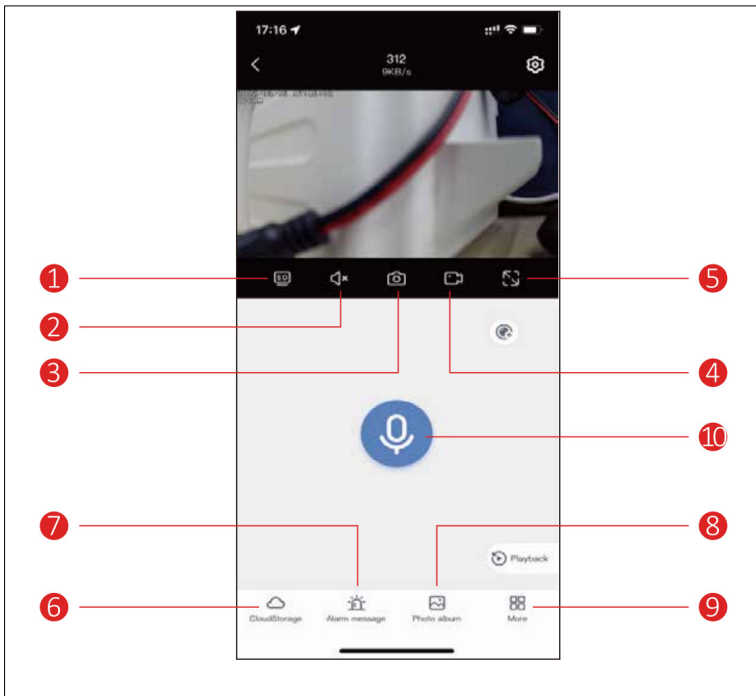

Enter the NVR login (not cloud).

Click “Confirm”

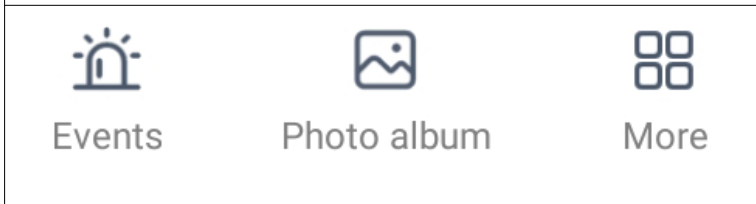

The device should now be in the device list.

To play live video, click on the play icon.

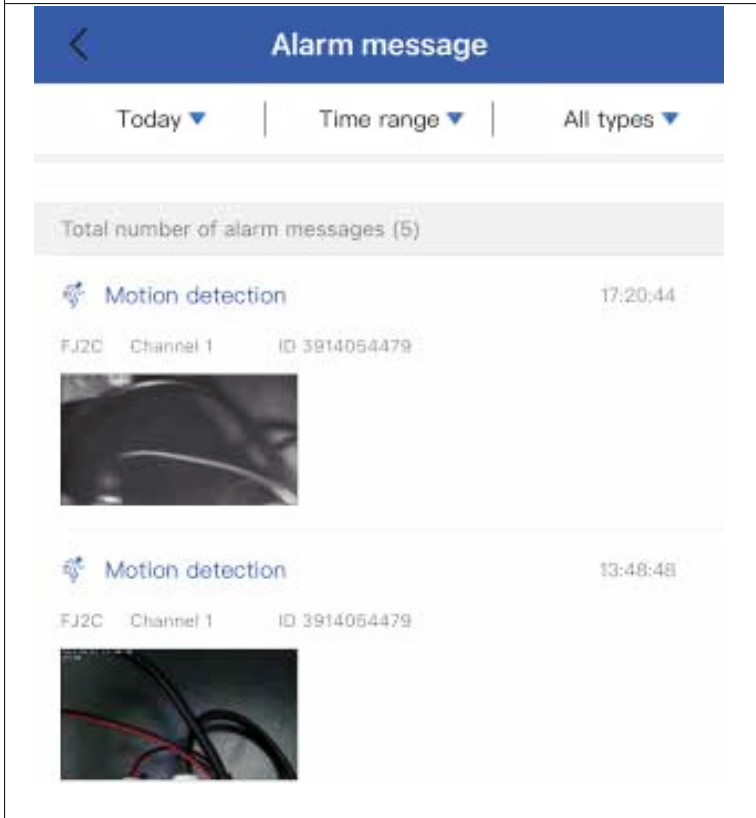

Live View Menu

- 1) select SD or HD stream
- 2) toggle camera audio
- 3) snapshot
- 4) manual recording to mobile device
- 5) landscape video
- 6) access paid cloud storage
- 7) event list from this channels
- 8) go to local app photo album
- 9) NVR and camera settings
- 10) walkie talkie mode to talk to the camera

Playback NVR video

To play back NVR video, you can either click on “Events” or “Playback”. Here, we click on “Events”

Select a calendar day under “Today”
 Under “Time range” select start and stop times.
 Alarm type is “all types” by default.
 The listing will show search results for all channels.
 Click an event to view the video.
